

UbuntuSure Insurance - Claims Policy

Internal Claims Policy | Demonstration Document

1. Purpose

This policy defines the rules used by UbuntuSure Insurance when receiving, reviewing and processing insurance claims.

2. Claim Submission Rules

- Claims should normally be submitted within 30 calendar days of the incident.
- A valid policy must have been active on the date of the incident.
- The claimant must provide the policy number, incident date, claim type and supporting evidence.
- Claims submitted after 30 days may be referred for manual review.

3. Claim Value Categories

- Claims below R10,000 are classified as low-value claims.
- Claims from R10,000 up to and including R50,000 are classified as standard-value claims.
- Claims above R50,000 are classified as high-value claims.
- All high-value claims require additional review before final approval.

4. Claim Statuses

- Submitted: the claim has been received but has not yet been assessed.
- Under Review: the claim is currently being assessed.
- Approved: the claim has passed the required checks.
- Rejected: the claim did not meet one or more policy requirements.
- Paid: an approved claim has been settled.

5. Repeat Claims

- A customer with three or more claims within a rolling 12-month period must be referred for additional review.
- Repeat claims do not automatically indicate fraud; they trigger further assessment.
